SANTOSH DAHAL

BCA STUDENT at Tribhuvan University

I am a dedicated Bachelor's in Computer Application student, where I am refining my skills in software and Android app development.

With a basic foundation in Java, C++, and PHP web development, I am proficient in creating robust and user-centric applications. My passion for technology is complemented by my love for teas and travel, which drives my curiosity and creativity.

School Leaving Certificates
Bal Bikash Secondary School / Kageshwori Manohara Municipality-02 Kathmandu / May, 2010 - August, 2020

Bachelor in Computer Application
Jaya Multiple Campus(TU) / Kathmandu / February, 2021 - Present

EXPERIENCE

○ **Freshers no Experiences**

TRAINING/CERTIFICATIONS

○ **Git and Github**
Genese Cloud Academy(AWS) / 2021

PROJECTS

○ **Basic Banking System**

The online banking system developed using HTML, CSS,JavaScript, and PHP is a sophisticated and secure digital platform that allows users to manage their banking activities over the internet. This system combines the power of front-end technologies like HTML (for structuring web content), CSS (for designing visually appealing interfaces), and JavaScript (for interactive user experiences) with back-end scripting using PHP (for server-side processing and database interactions)
